AHCSPO306 Operate specialised seed processing machinery

Release: 1

AHCSP0306 Operate specialised seed processing machinery

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to operate specialised seed processing machinery and equipment such as spiral and colour separators. Workers operate with some judgement and discretion and work would normally be carried out under minimal supervision within enterprise requirements and procedures.

It applies to individuals who take responsibility for their own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Seed processing (SPO)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Select and prepare specialised seed processing machinery and equipment for use	1.1 Select and prepare specialised machinery and equipment to job requirements and confirm against work plan 1.2 Complete routine pre-operational checks of the machine to manufacturer's specifications and enterprise requirements 1.3 Recognise work health and safety hazards in the workplace and assess and minimise risks
2. Operate specialised	2.1 Operate machinery and equipment in a safe and controlled

Element	Performance criteria
seed processing machinery and equipment	manner and monitor for performance and efficiency 2.2 Anticipate risks to self, others and the environment and implement minimisation strategies accordingly 2.3 Select, use, maintain and store suitable personal protective equipment (PPE) 2.4 Report environmental implications associated with machinery operation
3. Complete and report on specialised seed processing machinery and equipment operation	3.1 Complete shut-down procedures to manufacturer's specifications and enterprise requirements 3.2 Complete and maintain specialised machinery and equipment operational records 3.3 Report malfunctions, faults and observation of irregular performance of specialised seed processing machinery and equipment 3.4 Clean, secure and store machinery and equipment

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCSPO306A Operate specialised seed processing machinery.

Assessment Requirements for AHCSPO306 Operate specialised seed processing machinery

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- set up and prepare specialised seed processing machinery for use
- operate two kinds of specialised seed processing machinery
- report on specialised seed processing machinery and equipment operation

Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices for operating two kinds of specialised seed processing machinery
 - safe operation of machinery
 - the basic principles and operation of airlegs
 - the basic principles and operation of colour sorters
 - the basic principles and operation of floatation tanks
 - the basic principles and operation of magnetic rollers
 - the basic principles and operation of seed dryers
 - the basic principles and operation of seed sizing equipment
 - the basic principles and operation of seed spirals
 - the basic principles and operation of velvet rollers

Assessment Conditions

Assessors must satisfy current standards for RTOs.
