AHCSS00117 Introduction to Conservation and Ecosystem Management Skill Set

Release 1

AHCSS00117 Introduction to Conservation and Ecosystem Management Skill Set

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Description

This skill set provides basic skills and knowledge for individuals to recognise common plants and animals in natural landscapes and to undertake basic conservation and ecosystem works in the conservation and ecosystem management industry.

Pathways Information

These units of competency provide pathways into a range of Certificate II and Certificate III qualifications in the AHC Agriculture, Horticulture and Conservation and Land Management Training Package.

Licensing/Regulatory Information

No licensing or regulatory requirements apply to this skill set at the time of publication.

Skill Set Requirements

- AHCECR203 Perform basic ecological restoration works
- AHCFAU202 Recognise fauna
- AHCPCM204 Recognise plants

Target Group

This skill set is for individuals who wish to develop basic skills as means to enter the conservation and ecosystem management industry, or develop basic skills in identifying common native plants and animals and support conservation works.

Suggested words for Statement of Attainment

These competencies from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package meet industry requirements for performing basic conservation and ecosystem works.
