AHCSS00136 Maintain Permaculture Systems Skill Set

Release 1

AHCSS00136 Maintain Permaculture Systems Skill Set

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Description

This skill set provides the skills and knowledge required to prepare and maintain a permaculture growing environment including soils, pests and diseases using permaculture principles and integrated plant and animal systems.

Pathways Information

These units of competency can provide credit towards a range of qualifications and/or build on the skills and knowledge of previous qualifications attained from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

- AHCPER325 Mitigate plant pests, diseases and disorders in a permaculture system
- AHCPER332 Maintain integrated plant and animal systems
- AHCPER336 Test, improve and maintain healthy soil in a permaculture system

Target Group

This skill set is for individuals who have developed basic skills in horticulture, agriculture or permaculture and aspire to implement more specialised skills in permaculture.

Suggested words for Statement of Attainment

These competencies from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package meet the industry requirements for maintaining crops using permaculture principles and practices.
