AHCSS00143 Permaculture Community Development Skill Set

Release 1

AHCSS00143 Permaculture Community Development Skill Set

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Description

This skill set provides the skills and knowledge required to identify and analyse the characteristics of a bioregion and to provide advice, recommendations and operational activity for sustainable community development within the bioregion.

Pathways Information

These units of competency can provide credit towards a range of qualifications and/or build on the skills and knowledge of previous qualifications attained from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

- AHCPER418 Provide advice on permaculture principles and practices
- AHCPER422 Identify and analyse bioregional characteristics and resources
- AHCPER424 Recommend approaches for sustainable community and bioregional development
- AHCPER425 Operate within a sustainable community and bioregional development program

Target Group

This skill set is for local government employees, social workers, permaculture practitioners, farmers and land managers.

Suggested words for Statement of Attainment

These competencies from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package meet the industry requirements for assisting in the development of sustainable bioregional development.
