AHCSS00144 Composting Farm Waste, Livestock Waste and Mortalities Skill Set

Release 1

AHCSS00144 Composting Farm Waste, Livestock Waste and Mortalities Skill Set

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Description

This skill set provides skills and knowledge to recognise, assess and receive raw materials for composting and operate composting plant and equipment to produce compost.

Pathways Information

These units of competency can provide credit towards a range of qualifications and/or build on the skills and knowledge of previous qualifications attained from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package.

Licensing/Regulatory Information

Licensing, legislative or certification requirements may apply to this skill set where biosecurity risks are identified for the processing of animal mortalities. Users are advised to check with the relevant regulatory authority.

Skill Set Requirements

- AHCCOM204 Assess and receive raw materials for composting
- AHCCOM205 Recognise and respond to fire emergencies on a composting site
- AHCCOM206 Recognise raw materials, production processes and products on a composting site
- AHCCOM304 Operate compost processing plant, machinery and equipment

Target Group

This skill set is for farmers and farm employees who have a need to process large volumes of farm waste by composting processes.

Suggested words for Statement of Attainment

These competencies from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package meet the industry requirements for preparing for and implementing composting procedures on a farm.
