Assessment Requirements for AHCTRF301 Construct turf playing surfaces

Release: 1

Assessment Requirements for AHCTRF301 Construct turf playing surfaces

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- determine turf construction requirements from plans
- implement a turf construction project
- interpret existing site and construction plans and specifications
- organise work and use tools and equipment for turf construction project

Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices for constructing turf playing surfaces
 - environmental implications associated with construction and excavation activity, drainage and irrigations systems, soil amendments and waste disposal procedures
 - materials, tools, equipment and machinery available to the enterprise for construction of soil profiles, including soil amendments and base construction materials
 - practical understanding of surveying principles and techniques
 - range of construction methods that may be used to construct soil profiles for high performance turf surfaces, and the association of construction methods with site limitations, environmental implications, and end use of the turf surface
 - soil testing techniques and the application of results to the construction process

Assessment Conditions

Assessors must satisfy current standards for RTOs.
