Assessment Requirements for AHCTRF508 Manage sports turf facility assets

Release: 1

Assessment Requirements for AHCTRF508 Manage sports turf facility assets

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 4.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has, on at least one occasion, managed sports turf facility assets, including:

- identified sports turf facility assets, categorised them into type and maintenance requirements and recorded in workplace asset register or database
- determined maintenance requirements, resources and timing of maintenance and developed a schedule for sports turf facility, equipment and mechanical assets
- developed and implemented maintenance record keeping procedures for sports turf facility assets
- communicated sports turf facility assets maintenance schedule and procedures to stakeholders
- monitored maintenance work and safety procedures for sports turf facility assets
- reviewed and updated replacement programs and schedules
- assessed and reported status of sports turf facility assets, and recommended action when identified as unserviceable.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- management strategies for managing sports turf facility assets and effect on key stakeholders
- typical sports turf facility assets, including:
 - buildings and structures
 - tools, machinery and equipment
 - water supply, irrigation and drainage equipment
 - office equipment and resources

- gardens and surrounds
- fencing
- sporting hardware
- maintenance requirements of sports turf physical resources and infrastructure, including:
 - repairs
 - manufacturer specifications
 - regular service requirements and scheduling
 - standards and specifications
- recording asset management, including:
 - information to be recorded
 - proprietary software
 - paper or electronic databases
- scheduling and programming of sports turf maintenance works, including replacement plans and depreciation
- workplace health and safety procedures for overseeing asset maintenance programs, including:
 - safe operating procedures and practices
 - designating required personal safety equipment
- communication strategies and methods for informing stakeholders of maintenance programs
- procedures for reporting and recording maintenance activities.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - access to a sports turf facility or an environment that accurately represents workplace conditions with assets on which to develop a maintenance program
- specifications:
 - workplace procedures and instructions for managing sports turf facility
 - manufacturer maintenance instruction for assets
- relationships:
 - stakeholders.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
