Assessment Requirements for AHCWHS202 Participate in workplace health and safety processes

Release: 1

Assessment Requirements for AHCWHS202 Participate in workplace health and safety processes

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has participated in workplace health and safety processes on at least one occasion and has:

- followed workplace procedures for health and safety hazard identification, reporting and risk control
- read and followed workplace notices and workplace safety signs, symbols, labels and work instructions
- followed workplace procedures for dealing with accidents, fire and emergencies within the scope of responsibilities
- recorded information accurately or verbally reported information
- followed safe practices during work operations
- fitted and used personal protective equipment (PPE) relevant to area of work
- participated in arrangements for maintaining the workplace health and safety of all people in the workplace.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- hazards and risks in the industry sector
- workplace notices, workplace safety signs, symbols, labels and work instructions relevant to area of work
- workplace health and safety legislation, regulations, codes of practice and workplace procedures relevant to area of work
- worker and employer workplace health and safety responsibilities
- workplace procedures relating to hazards, fires, emergencies, accidents and risk control.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE applicable to area of work
 - workplace notices, workplace safety signs, symbols, labels and work instructions relevant to area of work
- specifications:
 - workplace health and safety legislation, regulations, codes of practice and workplace procedures relevant to area of work
- relationships:
 - designated personnel.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
