An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has conducted the following on at least two occasions:

- sourced and prepared information on wool to be appraised for industry description
- applied an appraisal of non-measured characteristics to fleece lines in a clip and recorded appraisal result
- used an appraisal of non-measured characteristics to establish a market value for lines made
- reviewed clip preparation strategies.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- features of relevant industry code of practice, as conducted in the workplace
- features of system for the appraisal of non-measured wool characteristics, as conducted in the workplace
- features of the industry selling rules
- interpretation of the wool sale catalogue
- interpretation of wool testing data
- clip preparation strategies
- relevant sources of wool sale lot information
- methods of seeking market information
- features of subjective assessment of wool, including:
 - style
 - colour
 - type of vegetable matter (VM) fault

- degree of urine stain and faults
- defects.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - industry code of practice
 - market information relevant to wool appraisal.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Assessors must currently be registered with the Australian Wool Exchange as Australian Wool Classers.
