Assessment Requirements for AHCWRK214 Observe workplace quality assurance procedures

Release: 1

Assessment Requirements for AHCWRK214 Observe workplace quality assurance procedures

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has observed workplace quality assurance procedures for a product or service on at least one occasion and has:

- identified and applied basic quality assurance (QA) practices and procedures
- kept QA records
- followed work instructions
- checked quality of work
- identified and reported quality issues.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace production processes relevant to work being undertaken
- basic understanding of the purpose, scope and requirements for the workplace QA system
- risk assessment and identification
- workplace QA policies, guidelines and standard operating procedures relevant to work being undertaken and level of responsibility.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - workplace QA system

- work instructions and procedures relevant to observing workplace QA procedures
- specifications:
 - workplace QA policies, guidelines and standard operating procedures
- relationships:
 - supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
