Assessment Requirements for AHCWRK215 Collect and record production data

Release: 1

Assessment Requirements for AHCWRK215 Collect and record production data

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has collected and recorded production data on at least one occasion and has:

- followed workplace procedures relevant to collecting and recording production data
- applied workplace health and safety requirements, including fitted and used personal protective equipment (PPE)
- prepared and used tools, equipment and materials required for data collection
- calibrated tools and equipment
- referred to data to complete work activities
- identified workplace health and safety hazards and risks, and reported to supervisor
- collected data as part of the work role or job function
- entered data into specified written and electronic formats
- stored data in the prescribed location and format
- downloaded and entered data on a computer.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purposes for which the recorded data might be used
- workplace procedures relevant to collecting and recording production data, including reporting methods and requirements
- workplace requirements applicable to health and safety in the workplace for collecting and recording production data, including appropriate use of PPE
- tools and equipment calibration methods and purpose
- software programs used for recording or storing data.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - production data
 - computer hardware and software
 - PPE applicable to collecting and recording production data
- specifications:
 - workplace health and safety legislation, regulations, codes of practice and workplace procedures relevant to collecting and recording production data
- relationships:
 - co-workers and supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
