Assessment Requirements for AHCWRK318 Comply with industry quality assurance requirements

Release: 1

Assessment Requirements for AHCWRK318 Comply with industry quality assurance requirements

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has complied with industry quality assurance requirements on at least one occasion and has:

- identified elements of quality assurance (QA) and quality standards relevant to the industry sector
- assessed work area for critical control points, safety hazards and risks
- completed records according to workplace procedures
- implemented standard operating procedures for operations and corrective action
- recognised, responded to and reported non-conformances and variations of product against quality standards
- identified and reported issues that impact on product quality.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- industry quality assurance requirements for a specified sector of industry
- purpose and requirements of a QA program
- procedures, policies, guidelines and standard operating procedures for field of work
- internal QA checking requirements
- reporting and recordkeeping requirements for QA
- work processes for specified field of work.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - products or services relevant to the specific primary production sector
- specifications:
 - workplace policies and procedures relevant to QA
 - workplace specifications and quality standards relevant to the industry sector
 - codes of practice relevant to quality.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
