Assessment Requirements for AHCWRK404 Implement quality assurance procedures

Release: 1

Assessment Requirements for AHCWRK404 Implement quality assurance procedures

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has implemented quality assurance procedures on at least one occasion and has:

- sourced and identified product market requirements and quality specifications
- identified hazards and critical control points in the production of quality product
- established an industry-based systematic approach to quality assurance (QA)
- assisted in planning of QA procedures
- developed QA recordkeeping templates
- established document control registers
- allocated responsibilities for carrying out QA procedures
- implemented QA procedures
- provided staff and contractor induction and on-job training.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- market requirements for product
- quality specifications for product
- definition of quality
- workplace and industry QA systems, including recordkeeping templates and document control registers
- industry QA principles and techniques, and their application
- strategies for control of hazards to quality
- contingency management
- staff delegation and empowerment
- workplace training strategies.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - products relevant to the industry sector
- specifications:
 - product market requirements and quality specifications
 - codes of practice relevant to quality
- relationships:
 - staff and contractors.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
