Assessment Requirements for AHCWRK406 Develop community networks

Release: 1

Assessment Requirements for AHCWRK406 Develop community networks

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has developed community networks, and has on at least one occasion:

- communicated with people using appropriate language and style
- investigated equity requirements and cultural protocols for dealing with community groups
- promoted program goals and issues to community groups through networking
- established networks of common interests through individual contacts and contacts with other groups.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- community structures, organisations and cultures
- relevant government community action programs
- process of delivery of programs
- need for the establishment of a community group
- current social and environmental affairs for local community and wider region.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:

- community group program or activity, including program goals and issues
- relationships:
 - business, social, personal and programs to the community contacts.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
