Assessment Requirements for AHCWRK515 Assess new industry developments

Release: 1

Assessment Requirements for AHCWRK515 Assess new industry developments

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has assessed at least one new industry development and has:

- critically evaluated information and research findings of relevance to the workplace and industry sector
- integrated research and development into workplace planning
- documented a report on new industry developments.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- correct names and terminology relevant to workplace industry sector
- key industry development and promotion programs relevant to workplace industry sector
- methods of assessing the reliability, credibility and authenticity of information
- roles and responsibilities of stakeholders and organisations relevant to own workplace industry sector
- appropriate avenues to disseminate industry sector information to a range of stakeholders.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:

- computer hardware and software
- key industry development and promotion programs and information
- relationships:
 - stakeholders and interest groups.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
