Assessment Requirements for AHCWRK516 Implement professional practice

Release: 1

Assessment Requirements for AHCWRK516 Implement professional practice

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has implemented professional practice on at least one occasion and has:

- investigated and analysed business structures and work practice
- developed legal, professional and ethical responsibilities working in an industry
- operated within an agreed ethical code of practice and ethics
- applied workplace health and safety requirements
- evaluated and reflected on own work practice
- developed a professional practice plan to meet professional goals.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- typical business management structures
- local and international professional organisations relevant to the industry
- team roles, responsibilities and accountabilities
- theories, principles, practices and their application, relevant to implementing professional practice
- legislation, ethical and financial considerations
- professional practice considerations
- issues of professional practice for the job role
- legislation covering protection of copyright and intellectual property
- time management strategies
- marketing principles
- expert witness roles and processes
- communication principles

- workplace requirements applicable to health and safety in the workplace
- strategies for promoting awareness of a product
- measuring performance
- personal goal setting strategies.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - computer hardware and software
- specifications:
 - workplace health and safety legislation, regulations, codes of practice and workplace procedures relevant to implementing professional practice
 - legislation, ethical and financial considerations
 - legislation covering protection of copyright and intellectual property
- relationships:
 - clients, supervisor and peers.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
