Assessment Requirements for AMPA2004 Assess, purchase and transport calves

Release: 1

Assessment Requirements for AMPA2004 Assess, purchase and transport calves

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must humanely, hygienically and safely assess, purchase and transport young (bobby) calves.

The candidate must:

- identify calves fit for transport and processing
- communicate to explain reasons for refusing selection of calves
- load, transport and unload bobby calves humanely, safely and hygienically
- accurately complete relevant paperwork
- plan pick up runs to meet regulatory and company requirements for time off feed
- identify and observe workplace health and safety requirements when handling calves
- read and interpret relevant workplace documents
- share information
- manage time and priorities

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- relevant company and regulatory requirements
- relevant calf behaviour
- animal welfare issues associated with handling and transporting young calves
- relevant paperwork for purchasing
- record keeping requirements
- NLIS requirements

Assessment Conditions

Competencies for handling, loading, transport and unloading of calves must be demonstrated using live animals. Assessment must be conducted under normal operating conditions.

As a minimum, the following three forms of assessment must be used:

- workplace demonstration
- quiz of underpinning knowledge
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
