AMPA2013 Complete changeover operation

Release: 1

AMPA2013 Complete changeover operation

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to re-position carcasses on a processing chain.

This unit is applicable to abattoirs, wild game processing establishments and knackeries.

All work should be carried out to comply with workplace and hygiene requirements.

This unit applies to individuals who work under general supervision, exercise limited autonomy and have some accountability for their own work.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

Nil.

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Re-position carcase	1.1 Complete changeover in accordance with workplace requirements 1.2 Complete changeover in accordance with workplace health and safety requirements 1.3 Store or dispose of gambrels, spreaders and slides, when used, according to workplace requirements

Element	Performance criteria
	1.4 Check equipment for defects (when this forms part of work instructions)

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP2018C Complete changeover operation.

Assessment Requirements for AMPA2013 Complete changeover operation

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must re-position carcasses on a processing chain.

The candidate must:

- complete changeover in accordance with work instructions
- complete changeover operation to workplace health and safety requirements
- treat iron work such as gambrels, spreaders and rollers in accordance with workplace requirements
- identify relevant defects in iron work (e.g. spreader, rollers), if used
- use correct manual handling techniques for changeover operation
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- workplace health and safety requirements including manual handling procedures associated with changeover
- the consequences of incorrectly re-positioning the carcass on the chain
- work instructions for the changeover operation
- relevant regulatory requirements
- appropriate reporting procedures for defects

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
