AMPA2019 Bag tail

Release: 1

AMPA2019 Bag tail

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to bag the tail to prevent contamination.

This unit is applicable to workers on the slaughter floor.

All work should be carried out to comply with workplace and hygiene requirements.

This unit applies to individuals who work under general supervision, exercise limited autonomy and have some accountability for their own work.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

AMPX209 Sharpen knives

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Bag tail and secure bag	1.1 Bag tail and secure the bag in accordance with workplace requirements 1.2 Monitor and replenish stock of bags and ties in accordance with workplace requirements 1.3 Remove brush (where applicable)

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP2025B Bag tail.

Assessment Requirements for AMPA2019 Bag tail

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must bag the tail to prevent contamination.

The candidate must:

- demonstrate bagging of tails and removal of brush
- demonstrate the capacity (at production speed) to maintain and monitor stocks of bags and ties, using estimation and calculation
- use a knife safely to remove tail brushes, where applicable
- follow work instructions for bagging tails
- apply relevant workplace health and safety and regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- the reason for bagging tails
- relevant workplace health and safety and regulatory requirements

Assessment Conditions

Assessment must be conducted on the slaughter floor.

Competency must be demonstrated at chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
