Assessment Requirements for AMPA2025 Operate scalding and de-hairing equipment

Release: 1

Assessment Requirements for AMPA2025 Operate scalding and de-hairing equipment

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate scalding and de-hairing equipment.

The candidate must:

- operate and monitor de-hairer according to manufacturer's specifications and work instructions
- monitor defects in processing and take corrective action
- report defects in accordance with workplace requirements
- use communication skills relevant to the task

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- defects to be identified and reported in accordance with workplace requirements
- workplace health and safety requirements of operating machinery
- potential sources of contamination and ways of preventing it
- work instructions related to operating scalding or de-hairing equipment

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
