AMPA2028 Operate vacuum blood collection process

Release: 1

AMPA2028 Operate vacuum blood collection process

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to operate a vacuum blood collection system.

This unit is applicable to slaughter floor operations.

All work should be carried out to comply with workplace and hygiene requirements.

This unit applies to individuals who work under general supervision, exercise limited autonomy and have some accountability for their own work.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

Nil.

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Operate a vacuum blood collection system	1.1 Identify and follow start-up procedures 1.2 Operate vacuum recovery system and collect blood according to work instructions 1.3 Identify and comply with specific hygiene and sanitation requirements for blood collection 1.4 Identify and comply with specific workplace health and safety

Element	Performance criteria
	requirements for blood collection 1.5 Explain, identify and manage sources of contamination according to workplace requirements 1.6 Identify and meet regulatory requirements and customer specifications for blood collection
2. Clean, maintain and monitor a vacuum blood collection system	2.1 Undertake routine maintenance, cleaning and monitoring according to workplace requirements

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP2034C Operate vacuum blood collection process.
