Assessment Requirements for AMPA2035

Operate new technology or process

Release: 1

Assessment Requirements for AMPA2035 Operate new technology or process

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate a new technology or process in a meat processing operation.

The candidate must:

- operate new equipment or new process in accordance with workplace health and safety requirements
- operate new equipment or new process to workplace requirements
- maintain new equipment where applicable in accordance with workplace requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- basic operating principles of equipment and/or purpose of the process
- workplace health and safety requirements associated with the process and/or use of equipment
- work instructions for the new equipment or process
- relevant regulatory requirements
- potential sources of contamination and cross-contamination

Assessment Conditions

Competency must be demonstrated in a processing environment and over a period of time.

Assessment tasks must be comprehensively customised to gather evidence specific to the new technology being implemented in a meat processing or retailing environment.

A minimum of three different forms of assessment must be used.

Assessors must satisfy the current standards for RTOs.
