Assessment Requirements for AMPA2036 Operate sterivac equipment

Release: 1

Assessment Requirements for AMPA2036 Operate sterivac equipment

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate sterivac equipment.

The candidate must:

- operate sterivac equipment in accordance with workplace health and safety requirements
- operate sterivac equipment to remove contamination to workplace requirements
- identify contamination to be removed
- remove contamination in accordance with workplace requirements
- maintain sterivac equipment in accordance with workplace requirements
- apply relevant regulatory requirements
- use relevant communication skills

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- basic operating principles of pneumatic sterivac equipment
- workplace health and safety issues associated with use of sterivac equipment
- consequences of not removing contamination to workplace requirements
- work instructions for operating the sterivac equipment
- relevant regulatory requirements
- potential sources of contamination and cross-contamination

Assessment Conditions

Assessment of skills must be conducted in an operating plant.

Competency must be assessed at normal chain speed and over a period of time.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
