Assessment Requirements for AMPA2039 Operate rib puller

Release: 1

Assessment Requirements for AMPA2039 Operate rib puller

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate a rib puller.

The candidate must:

- undertake pre-operational checks according to workplace requirements
- operate the rib puller in accordance with workplace health and safety requirements, Standard Operating Procedures (SOPs) and work instructions
- undertake routine maintenance according to workplace requirements
- clean rib puller in accordance with workplace requirements
- report equipment faults to supervisor either verbally or in writing in accordance with workplace requirements
- apply relevant regulatory requirements
- use communication skills relevant to work instructions

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- cleaning and maintenance requirements of the rib puller
- work instructions for operating the rib puller
- relevant regulatory requirements
- potential sources of contamination and cross-contamination
- ways of minimising contamination

Assessment Conditions

Assessment must take place in an operating meat processing plant.

Competency must be demonstrated at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
