AMPA2048 Inspect forequarter and remove contamination

Release: 1

AMP A2048 Inspect forequarter and remove contamination

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to inspect the forequarter of the carcase and remove contamination.

This unit is applicable to workers in abattoirs, knackeries, boning rooms, further processing plants and game processing establishment.

All work should be carried out to comply with workplace and hygiene requirements.

This unit applies to individuals who work under general supervision, exercise limited autonomy and have some accountability for their own work.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

AMPX209 Sharpen knives

Unit Sector
