Assessment Requirements for AMPA2064 Label and stamp carcase

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must label and stamp carcasses in accordance with regulatory and workplace requirements.

The candidate must:

- differentiate between the different types of labels
- differentiate between the different types of stamps and brands
- label and stamp carcase to hygiene and sanitation requirements
- label and stamp carcase to workplace and regulatory requirements
- consistently apply brands so they are legible
- observe relevant workplace health and safety requirements
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs)
- comply with security arrangements for stamps when not in use

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- security arrangements for stamps when not in use
- consequences of incorrect labelling, stamping or branding
- correct methods of attaching labels
- correct methods of stamping and branding
- relevant workplace health and safety requirements
- types of labels, stamps and brands, and when they are to be used

Assessment Conditions

Assessment must be conducted in an operating meat processing plant.

Competency must be demonstrated at the normal rate of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
