AMPA2076 Operate automatic CL determination machine

Release: 1

AMPA2076 Operate automatic CL determination machine

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to set up and monitor the operation of an automatic chemical lean (CL) percentage determination machine for carton meat.

This unit is applicable to boning room operations.

All work should be carried out to comply with workplace and hygiene requirements.

This unit applies to individuals who work under general supervision, exercise limited autonomy and have some accountability for their own work.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

Nil.

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Operate and monitor CL determination machine	1.1 Operate and monitor CL determination machine in accordance with workplace requirements 1.2 Monitor and report out-of-specification performance of machine in accordance with workplace requirements
2. Maintain CL determination machine	2.1 Perform routine maintenance of CL determination machine in accordance with manufacturer specifications and workplace

Element	Performance criteria
	requirements 2.2 Report major maintenance problems promptly in accordance with workplace requirements

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP2085C Operate automatic CL determination machine.

Assessment Requirements for AMPA2076 Operate automatic CL determination machine

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must set up and monitor the operation of an automatic chemical lean (CL) percentage determination machine for carton meat.

The candidate must:

- follow start-up and shut-down procedures as specified in manufacturer specifications and workplace requirements
- isolate out-of-specification cartons in accordance with work instructions
- apply relevant workplace health and safety requirements
- apply relevant regulatory requirements
- use relevant communication skills relevant to work instructions
- perform routine maintenance of CL determination machine in accordance with manufacturer specifications and workplace requirements
- report major maintenance problems promptly in accordance with workplace requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- start-up and monitoring procedures for CL determination machines
- general principles of CL determination
- action required if out-of-specification cartons are detected
- relevant workplace health and safety requirements
- relevant regulatory requirements

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge

- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
