Assessment Requirements for AMPA2077 Operate bag forming equipment

Release: 1

Assessment Requirements for AMPA2077 Operate bag forming equipment

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must form bags as part of a vacuum packaging process.

The candidate must:

- conduct start-up procedures to workplace requirements
- form bags according to workplace requirements
- operate machinery safely to workplace health and safety requirements
- maintain supply of consumables
- report equipment faults according to workplace requirements
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- start-up and operating procedures for bag forming machinery
- relevant regulatory requirements
- hygiene requirements for forming bags
- workplace health and safety hazards associated with machinery operation
- different packaging specifications

Assessment Conditions

Assessment must be conducted in a meat processing plant.

Bag forming machinery must be operated to meet normal production requirements.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
