Assessment Requirements for AMPA2080 Assess dentition

Release: 1

Assessment Requirements for AMPA2080 Assess dentition

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must assess dentition and record the results.

The candidate must:

- work cleanly to assess dentition and to avoid the risks of contamination of the carcase
- identify and record the number of permanent incisor teeth according to work instructions
- apply numeracy skills relevant to relevant to work instructions

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- dentition as a measure of animal age
- anatomical aspects of dentition
- importance and value of accurate dentition assessment
- workplace requirements for recording dentition

Assessment Conditions

Assessment must occur in an operating abattoir under normal processing conditions.

Dentition assessment must be performed at a pace that is the same as the pace of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
