Assessment Requirements for AMPA2088 Process offal

Release: 1

Assessment Requirements for AMPA2088 Process offal

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

Competency must be demonstrated in processing a minimum of four (4) types of offal.

The candidate must:

- identify contamination and defects and take corrective action
- identify defects in offal including disease (including Ovine Johne's Disease (OJD)), parasite damage and contamination
- apply relevant regulatory requirements
- wash offal (where required) according to workplace requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- hygiene and sanitation requirements related to processing offal
- workplace health and safety requirements related to processing offal
- relevant regulatory requirements
- sources of contamination and cross-contamination

Assessment Conditions

Assessment must be conducted in a registered operating meat processing plant.

Competency must be demonstrated at the normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
