Assessment Requirements for AMPA2089 Process runners

Release: 1

Assessment Requirements for AMPA2089 Process runners

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must process runners as part of a runner room operation.

The candidate must:

- process runners to workplace requirements
- comply with hygiene and sanitation requirements
- demonstrate measures to minimise contamination
- identify defects in runners including disease, damage and contamination
- store runners according to workplace procedures and specifications
- dispose of runners not fit for consumption in the appropriate chute or bin
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- hygiene and sanitation requirements
- runner specifications and grading
- sources of contamination and cross-contamination
- relevant regulatory requirements

Assessment Conditions

Assessment must be conducted in a registered operating meat processing plant.

Competency must be demonstrated at the normal rate of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
