Assessment Requirements for AMPA2103

Further process tripe

Release: 1

Assessment Requirements for AMPA2103 Further process tripe

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must further process tripe, including scalding and bleaching.

The candidate must:

- further process tripe to workplace, health and safety, hygiene and sanitation, and Quality Assurance (QA) requirements
- identify defects in tripe
- operate the equipment to workplace, health and safety, hygiene and sanitation, and QA requirements
- communicate and cooperate with team members to maintain the flow of tripe through the processing area
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- steps in the processing of tripe
- tripe trim specifications
- customer specifications for processed tripe
- hygiene and sanitation requirements for the further processing of tripe
- impact of inadequately processed product being packed
- operation of the equipment for the further processing of tripe
- relevant regulatory requirements

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration

- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
