AMPA2106 Process bibles

Release: 1

AMPA2106 Process bibles

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to process bibles as part of a tripe room operation.

This unit is applicable to workers employed in tripe room operations.

All work should be carried out to comply with workplace and hygiene requirements.

This unit applies to individuals who work under general supervision, exercise limited autonomy and have some accountability for their own work.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

AMPX209 Sharpen knives

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Process bibles	1.1 Trim bibles according to workplace requirements and specifications 1.2 Identify defects in bibles, including disease and incorrect cutting lines, according to workplace requirements 1.3 Identify and meet workplace health and safety requirements

Element	Performance criteria
	1.4 Place trim in appropriate bin or chute according to workplace requirements 1.5 Identify types and sources of contamination and cross-contamination

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP2126C Process bibles

Assessment Requirements for AMPA2106 Process bibles

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must process bibles as part of a tripe room operation.

The candidate must:

- trim bibles according to workplace, health and safety, Quality Assurance (QA), and hygiene and sanitation requirements and specifications
- identify defects in cutting lines and report to supervisor according to work instructions
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- hygiene and sanitation requirements associated with processing bibles
- workplace health and safety requirements associated with processing bibles
- relevant regulatory requirements
- steps in processing bibles

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
