Assessment Requirements for AMPA2111

Locate storage areas and product

Release: 1

Assessment Requirements for AMPA2111 Locate storage areas and product

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must identify and nominate specific storage locations and the product stored in them. The candidate must:

- identify any problems related to storage of products and take the corrective action detailed in work instruction
- locate storage areas for a variety of products
- identify products accurately
- apply relevant workplace health and safety requirements
- use communication skills relevant to work instructions

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- purpose of product segregation
- relevant workplace health and safety requirements
- products stored and their storage requirements

Assessment Conditions

Assessment must occur in the workplace under normal operating conditions.

Competency must be demonstrated under normal utilisation of chiller or freezer facilities.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
