AMPA2111 Locate storage areas and product

Release: 1

AMPA2111 Locate storage areas and product

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to identify and nominate specific storage locations and the product stored in them.

This unit is applicable to workers in a registered meat processing premises such as a cold storage business, chilling and freezing areas of the abattoirs, food service operations, smallgoods factory, wholesale butchery, game meat processing establishment or pet food premises.

All work should be carried out to comply with workplace and hygiene requirements.

This unit applies to individuals who work under general supervision, exercise limited autonomy and have some accountability for their own work.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

Nil.

Unit Sector

Assessment Requirements for AMPA2111 Locate storage areas and product

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must identify and nominate specific storage locations and the product stored in them. The candidate must:

- identify any problems related to storage of products and take the corrective action detailed in work instruction
- locate storage areas for a variety of products
- identify products accurately
- apply relevant workplace health and safety requirements
- use communication skills relevant to work instructions

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- purpose of product segregation
- relevant workplace health and safety requirements
- products stored and their storage requirements

Assessment Conditions

Assessment must occur in the workplace under normal operating conditions.

Competency must be demonstrated under normal utilisation of chiller or freezer facilities.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
