Assessment Requirements for AMPA2115 Separate offal

Release: 1

Assessment Requirements for AMPA2115 Separate offal

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must separate offal into edible and inedible types (including pet meat).

The candidate must:

- identify the various organs processed on the viscera table
- separate offal to hygiene and sanitation, workplace, Quality Assurance (QA) and workplace health and safety requirements
- identify condemnation marks on offal
- handle offal to avoid bile, ingesta, excreta or content contamination
- dispose of inedible offal in appropriate bins or chutes
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- hygiene and sanitation, workplace, QA and workplace health and safety requirements associated with separating offal on the slaughter floor
- impact of contamination of edible offal on further processing
- importance of accurate separation of offal on the viscera table
- relevant regulatory requirements

Assessment Conditions

Competency must be demonstrated at normal chain speed.

Assessment must occur in the workplace under normal production conditions.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
