Assessment Requirements for AMPA2117 Separate and tie runners

Release: 1

Assessment Requirements for AMPA2117 Separate and tie runners

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must separate runners from the viscera, inspect for defects or contamination and tie the runners to avoid spillage of contents.

The candidate must:

- handle runners in such a way as to avoid bile, ingesta, excreta or content contamination
- identify condemnation marks on runners
- dispose of inedible runners in appropriate bins or chutes
- apply relevant regulatory requirements.

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- possible sources of contamination
- uses of end runners
- workplace, health and safety and Quality Assurance (QA) requirements related to separating and tying runners
- relevant regulatory requirements.

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at normal chain speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
