Assessment Requirements for AMPA2127 Recover offal

Release: 1

Assessment Requirements for AMPA2127 Recover offal

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must recover at least three different types of offal on a slaughter floor.

The candidate must:

- inspect offal for defects
- recover offal according to workplace requirements
- recover offal safely according to workplace health and safety requirements
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- types of offal recovered
- methods of avoiding or dealing with contamination
- sources of contamination and cross-contamination
- work instructions and Standard Operating Procedures (SOPs) relevant to the recovery of offal
- relevant regulatory requirements
- types of defects and contamination of offal

Assessment Conditions

Assessment must be conducted in a registered operating meat processing plant.

Competency must be demonstrated at the normal rate of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
