AMPA2127 Recover offal

Release: 1

AMP A2127 Recover offal

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to recover offal on a slaughter floor.

This unit is applicable to workers recovering at least three types of offal from the slaughter floor. A wide range of offal such as uterus, rectums, thymus gland, heart, kidneys, livers, testicles, and pizzles can be recovered.

All work should be carried out to comply with workplace and hygiene requirements.

This unit applies to individuals who work under general supervision, exercise limited autonomy and have some accountability for their own work.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations

Pre-requisite Unit

AMPX209 Sharpen knives

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Recover offal	1.1 Identify and recover offal according to workplace requirements 1.2 Recover offal safely according to workplace health and safety requirements 1.3 Inspect offal for defects according to workplace Quality Assurance (QA) requirements

Element	Performance criteria
