Assessment Requirements for AMPA2128 Overview hide or pelt or skin processing

Release: 1

Assessment Requirements for AMPA2128 Overview hide or pelt or skin processing

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must explain the treatment of hides, skins and pelts (or any other exterior covering) at a particular plant or processing centre.

The candidate must:

- identify steps in processing animal coverings
- identify requirements and specifications for the processing of hides
- use communication skills relevant to work instructions

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- methods of stacking and storing animal coverings
- methods of treating animal coverings
- importance of maintaining the quality of hides processed
- storage of animal coverings and the goals of such storage
- types of defects that occur in hides, pelts and skins and what causes these defects
- uses of animal coverings
- workplace health and safety requirements for hide or skin processing
- customer requirements for hides, pelts and skins
- steps in processing of hides, pelts and skins

Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at normal chain speed.

A minimum of three different forms of assessment must be used.

Assessors must satisfy the current standards for RTOs.
