Assessment Requirements for AMPA2133 Treat hides chemically

Release: 1

Assessment Requirements for AMPA2133 Treat hides chemically

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must treat hides coming from a slaughter floor or game processing establishment prior to despatch.

The candidate must:

- treat hides according to work instructions
- inspect hides for contamination, where applicable
- apply relevant regulatory requirements
- monitor chemicals and reservoir levels to be used in treating the hides
- store hides according to workplace requirements
- treat hides safely according to workplace health and safety procedures

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- workplace health and safety requirements when treating hides
- workplace health and safety hazards when treating hides
- purpose of treating hides with chemicals
- work instructions for treating hides
- relevant regulatory requirements
- environmental issues and requirements when treating hides chemically
- storage requirements for hides after treatment

Assessment Conditions

Assessment should be conducted in an operating plant.

Competency must be demonstrated at normal chain speed of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
