Assessment Requirements for AMPA2140

Perform sweating operation on fellmongered skins

Release: 1

Assessment Requirements for AMPA2140 Perform sweating operation on fellmongered skins

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must sweat skins in a fellmongering process.

The candidate must:

- check quality of the skins
- operate the sweating room in accordance with workplace and health and safety requirements
- apply relevant regulatory requirements and safety procedures
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs).

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- workplace health and safety requirements related to sweating skins
- purpose of sweating skins
- quality specifications required of sweated skins prior to pulling
- steps in sweating skins
- relevant regulatory requirements and safety procedures.

Assessment Conditions

Assessment must be conducted in an operating fellmongering plant.

Competency must be demonstrated at normal throughput rates of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time.

Assessors must satisfy the current standards for RTOs.
