Assessment Requirements for AMPA2148 Operate wool puller

Release: 1

Assessment Requirements for AMPA2148 Operate wool puller

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate a wool pulling machine in a fellmongering operation.

The candidate must:

- operate machinery according to work instructions
- operate machinery safely
- monitor machine operations
- clean and check machinery
- report defects in machine performance
- apply relevant regulatory requirements
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs).

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- relevant safety procedures
- workplace health and safety hazards associated with operating the wool puller
- operating requirements for pulling machine
- QA requirements for skins and pulled wool
- cleaning requirements
- relevant workplace health and safety policies and procedures
- relevant regulatory requirements.

Assessment Conditions

Assessment must be conducted in an operating fellmongering plant.

Competency must be demonstrated at the normal rate of throughput.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration

- workplace referee or third-party report of performance over time.

Assessors must satisfy the current standards for RTOs.
