**Release: 1**

# Assessment Requirements for AMPA2152 Process paunch

## Modification History

| Release | TP Version | Comment         |
|---------|------------|-----------------|
| 1       | AMPv2.0    | Initial release |

## Performance Evidence

The candidate must empty, clean and prepare the paunch for further processing.

The candidate must:

- apply workplace health and safety and workplace requirements related to processing of the paunch
- follow work instructions to process paunch
- use mechanical aids where applicable
- report faults in mechanical aids in accordance with workplace requirements
- apply relevant regulatory requirements
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

## Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- quality requirements and specifications for paunches
- uses of the paunch
- work instructions for the paunch processing area
- relevant regulatory requirements
- workplace health and safety hazards and requirements for paunch processing area

## Assessment Conditions

Assessment must be conducted in an operating abattoir or knackery.

Competency must be demonstrated at the usual speed of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
