Assessment Requirements for AMPA2154 Process pet meat

Release: 1

Assessment Requirements for AMPA2154 Process pet meat

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must process and pack pet in an abattoir, knackery or wild game processing establishment.

The candidate must:

- process meat and offal for pet food in accordance with work instructions, regulatory requirements and customer specifications
- process meat and offal for pet food to workplace requirements
- identify abnormalities or defects and take appropriate corrective action
- package and store pet food in accordance with regulatory, customer and workplace requirements
- comply with workplace health and safety requirements for the processing of pet meat

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- types of meat used for pet meat
- workplace and regulatory requirements related to the processing, packaging and storage of pet meat
- workplace health and safety requirements for the processing of pet meat

Assessment Conditions

Assessment must be conducted in a meat or pet food processing premises.

Competency must be demonstrated at normal production speeds.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
