Assessment Requirements for AMPA2160 Operate meat meal mill

Release: 1

Assessment Requirements for AMPA2160 Operate meat meal mill

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must operate a meat mill plant including loading, drying and monitoring the quality of the finished meal.

The candidate must:

- operate meat meal mill to workplace health and safety requirements
- monitor the operation of the meat meal mill to workplace requirements
- monitor the quality of meat meal
- produce meat meal to workplace requirements and customer specifications
- report equipment faults in accordance with workplace requirements
- carry out routine maintenance on meat meal mill as specified in workplace requirements
- apply relevant regulatory requirements
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- defects in meat meal
- meat meal processing
- workplace health and safety hazards of operation of the meat meal mill
- relevant regulatory requirements
- workplace requirements and customer specifications for meat meal

Assessment Conditions

Assessment must be conducted in an operating rendering plant.

Competency has to be demonstrated by operating a meat meal mill at normal production rates.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration

- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
