Assessment Requirements for AMPA3001 Stick and bleed animal

Release: 1

Assessment Requirements for AMPA3001 Stick and bleed animal

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must humanely, effectively and hygienically bleed animals.

The candidate must:

- demonstrate effective sticking of animal in accordance with workplace health and safety and workplace requirements
- maintain, clean and handle knives safely and hygienically
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- religious requirements, where relevant
- animal welfare considerations and animal welfare requirements
- consequences of an incomplete bleed for the quality of the product
- purpose of sticking
- purpose of a fast and complete bleed
- anatomical structures relevant to sticking, including variations between species
- relevant regulatory requirements
- potential causes of contamination and cross-contamination
- requirements of the Animal Welfare standards and regulations, and enterprise ethical standards relating to the bleeding of animals

Assessment Conditions

Assessment must occur in a registered slaughtering establishment under normal production conditions.

Competency must be demonstrated at normal chain speed.

As a minimum the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
