**Release: 1**

# Assessment Requirements for AMPA3022 Skin head

## Modification History

| Release | TP Version | Comment         |
|---------|------------|-----------------|
| 1       | AMPv2.0    | Initial release |

## Performance Evidence

The candidate must manually remove the hide or pelt from a head.

The candidate must:

- use sterilisation techniques required prior to and during the skinning of the head
- skin the head to workplace requirements
- work cleanly and to avoid the risks of contamination of the head and carcase
- use communication techniques relevant to work instructions and Standard Operating Procedures (SOPs)
- keep work area clean and tidy
- dispose of hide or pelt in accordance with work instructions
- identify sources of contamination and cross-contamination and rectify accordingly

## Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- workplace requirements for removing hide or pelt from head
- consequences of incorrectly removing hide or pelt from head
- use of head meat
- relevant regulatory requirements
- workplace health and safety requirements related to removing hide or pelt from head

## Assessment Conditions

Assessment must occur in the workplace under normal production conditions.

Competency must be demonstrated at normal chain speed for the meat processing plant.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
