AMPA3033 Bed dress carcase

Release: 1

AMPA3033 Bed dress carcase

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to bed dress cattle, deer or buffalo.

This unit is applicable to slaughter floors where hide pullers are not used and the hide is removed while the carcase is lying in a cradle. This unit may also cover bed dressing of buffalo and other large species of animals processed for either human consumption or pet food.

All work should be carried out to comply with workplace procedures, customer requirements and product specifications.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They provide and communicate solutions to a range of predictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

AMPX209 Sharpen knives

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Position carcase	1.1 Position carcase correctly in cradle to provide good access by operators in accordance with workplace requirements. 1.2 Position carcase in accordance with workplace health and

Element	Performance criteria
	safety requirements.
2 Complete opening cuts	2.1 Perform opening cuts in accordance with workplace requirements. 2.2 Identify and meet workplace health and safety requirements. 2.3 Split hide correctly from the udder/cod and to the point of the brisket with outward cuts to avoid contamination and puncturing. 2.4 Flank carcase with both left and right sides split from the flank to the shoulder area. 2.5 Carefully make opening cuts around both forelegs with incision from pit to hock. 2.6 Clear hide from both forelegs in accordance with workplace procedures. 2.7 Open hide to the neck along the length of the brisket. 2.8 Clear hide from both sides of neck and deep into the neck and shoulders clearing the brisket.
3 Remove hide	3.1 Remove hide employing measures and techniques to avoid damage to, or contamination of, carcase. 3.2 Dispose of hide in accordance with workplace requirements. 3.3 Perform all operations in accordance with workplace health and safety requirements.

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP3036C Bed dress carcase.

Assessment Requirements for AMPA3033 Bed dress carcase

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must bed dress cattle, deer or buffalo.

The candidate must:

- position carcase correctly in the cradle
- remove hide without damage to hide or carcase
- bed dress carcase according to work instructions
- work with bed dressing partner to remove hide smoothly and safely (where applicable)
- apply relevant workplace health and safety and regulatory requirements
- operate, clean and maintain equipment according to workplace requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- general economic impact of nicked, soiled or damaged hide and scored meat
- importance of correctly placing carcase in cradle
- relevant work instructions
- relevant workplace health and safety and regulatory requirements
- general anatomy of carcase relevant to the task

Assessment Conditions

Assessment must occur in a registered meat processing plant.

Competency must be demonstrated at normal production speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
