Assessment Requirements for AMPA3041 Eviscerate wild game animal carcase

Release: 1

Assessment Requirements for AMPA3041 Eviscerate wild game animal carcase

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must eviscerate a carcase that has been wild game shot and forwarded to a meatworks for processing.

The candidate must:

- remove internal organs to workplace and regulatory requirements
- follow procedures for presenting offal for inspection
- meet workplace health and safety requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- regulatory requirements applying to evisceration of wild game animal carcase
- purpose and method of presenting offal for inspection
- relevant work instructions
- organs to be removed
- potential risks of contamination and cross-contamination of the carcase and the required steps for corrective action

Assessment Conditions

Assessment must be conducted in a registered wild game processing establishment.

Competency must be demonstrated at the normal speed of production.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
